90 YEARS OF CREATING American Style

Designs from all over the world, reimagined with a **distinctly American attitude**, made relevant for the way we live today.

CLASSIC: balanced, refined, and scaled for the 21st century—a just-right version of formal.

COUNTRY: timeless patterns, natural textures; a structured yet casual “welcome home.”

COASTAL: inspired by sand and sky; open and comfortable, with nautical notes.

MODERN: organic and industrial materials combined within clean-lined, livable spaces.

We create these looks with products that are mostly **made in our North American workshops**. Because we make them, we can personalize them in the fabrics, leathers, and finishes of your choosing, and deliver them faster.

You can replicate these looks exactly as they're shown here, or use our **complimentary interior design service** to create your own unique vision of American style.

As you'll see in this magazine, the results will be extraordinary.

craftsmanship
90 YEARS IN THE MAKING

We make about 75% of our products in our own North American workshops to ensure a level of quality and craftsmanship that no other furniture maker can match.

UPHOLSTERY is tailored by hand over handcrafted frames, using only CertiPUR-US® certified foams, using the finest fabrics and leathers that meet or exceed all industry standards for excellence.

WOOD FURNITURE is crafted from logs that we mill ourselves or from lumber that passes a rigorous inspection, fitted with traditional joinery that stands the test of time, and always finished by hand.

We use **21st-century innovations**, like laser-guided tools, that make each piece even more long lasting and more personalized to the way you live, yet two things have remained the same for 90 years: the pride and the passion of our craftspeople.
